

PATCHBOX Plus⁺

PATCHBOX Simplify IT

The PATCHBOX Plus+ is the state of the art cable management system; fast and neat. It replaces conventional cable management and patch cords completely with an all-in-one solution.

With its retractable cables the PATCHBOX Plus+ provides the user with the exact cable length needed. No more overly long cables, creating a cabinet full of cable spaghetti. Installation time is dramatically reduced and due to the clean setup maintenance can even be done remotely further reducing costs.

PATCHBOX Simplify IT

Easy Documentation

Only accurate documentation is good documentation. Forget about sticky labels, forget about expensive third party or manufacturer labelling solutions.

PATCHBOX provides tear-off labels that simply slide into the front of each cassette. Depending on your setup, you just have to write i.e. „A1“ on the label and due to the physical switch port assignment to the cassettes (cassette 1 is connected to switch port 1 and so on) you see with an blink of the eye what your connections are.

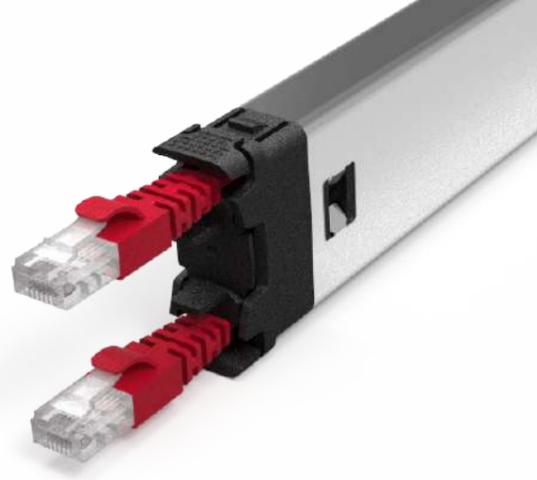

Superior Airflow

31" (800mm) wide cabinets are used mainly because of the extra space on the right and left side of the 19" mountings. That extra space is commonly used to hide and store excess cable.

The problem with that is, most active components have their fans on the side and those are blocked from the cable clutter. Overheating can cause a lot of unwanted downtime and extra maintenance.

23.5" (600m) Wide Cabinets Instead of 31.5" (800mm) Wide

The PATCHBOX uses flat patch cords, 100% tested according to ISO Class E Standards (Category 6). Our flat patch cords only use 1/4 of the space a conventional patch cord would need. With that and our cable management tool the Patchcatch, those extra 6" cabinet isn't required anymore.

Network with Confidence

YEAR

WARRANTY

LOGIC

Achieve the impossible! An overview in your cabinets, and know in any situation what is connected.

FLUKE CERTIFIED

Every single cable, fibre and copper, is tested according to ISO standards.

10X FASTER MAINTENANCE

Due to the perfect overview and the cables in the right place, maintenance is sped up by the factor of 10!

STAYS NEAT

You will not have any cable clutter anymore because of perfect patching.

CABLE MANAGEMENT INCLUDED

Cable management reinvented and included. No more traditional cable management needed.

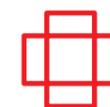

MODULAR SYSTEM

Cassettes are available in different types and can be combined:
Cat. 6 (UTP / STP) in 7 colors
Glass fiber (OS2 / OM4)
Length: 5,58' (1.7m) extendable
