# SETUP.EXE

PATCHBOX Simplify IT

The SETUP.EXE is a problem solving miracle designed by Network Engineers. Through its ingenious design, one person is able to do the work of two people when setting up or dismantling a network cabinet.

Use it as a table for your laptop or while terminating patch panels. It can also carry your most important tools like a screwdriver, spare cage nuts, cable ties and so on and is mounted in the cabinet within just three seconds.

SETUP.EXE is the ultimate tool for everyone working on network cabinets!

SETUP.EXE

PATCHBOX Simplify IT

Setup Desk

A fast mount desk that you can have always with you. Desk on the go - Stop trying to hold a laptop with one hand, type with the other and then with your third hand connect a cable. Rest your laptop on SETUP.EXE and take it easy. It even has a rubberised top so your gear does not slip off.

Third Hand

Install / remove heavy equipment with up to 33lb (15kg) with one SETUP.EXE. A one person installation is now possible as SETUP.EXE is now your trusty assistant, able to support the hardware while you fix everything into place. You don't need a trainee anymore. Simply mount it up side down and the equipment slides in easily.

Tool Depot

Carry your important tools and spares with you. Now that you do not have that trainee with you anymore you only have yourself to blame when you forget i.e. cage nuts. But don't worry, with the SETUP.EXE you'll always have spares with you including a screw driver and cable ties. Just don't forget your SETUP.EXE!

patchbox.com

TOOL DEPOT

Carry your most important tools with you.

CABLE TIE ARSENAL

Tie down anything easily.

CAGE NUT MAGAZINE

Never search for cage nuts again.

SETUP DESK

Both hands free while configuring / terminating.

RUBBERISED TOP

Prevents your hardware from slipping.

BOLT PLUNGER

Holds the SETUP.EXE firmly.
